Can I put you on hold? You won't be hearing that when ordering from a few Baja Fresh restaurants in the O.C. - now that you can order by mobile phone or online.

Several stores announced today a deal with Costa Mesa's LiveOnTheGo.com, a free online or mobile service that allows users to order meals, pay for food in advance and schedule a pickup time.

The participating O.C. stores are in Rancho Santa Margarita on El Paseo; Lake Forest on Lake Forest Drive; Laguna Niguel on Golden Lantern; San Clemente on Avenida Pico; Mission Viejo South on Marguerite Parkway and Mission Viejo North on Alicia Parkway.

To use the service, go to the Web site, choose your ZIP code or city to find nearby restaurants using the service and then order and pay (paying online or on your mobile device is an option, not a requirement.) Using the service for ordering does not add any convenience charges, mandatory tips or hidden fees and orders are ready at specified pickup or delivery times.
